

## Introduction to the Online Services Consent Form for Bundaberg North State High School

Our school uses tools and resources to support student learning, including third party (non-departmental) online services hosted and managed outside of the Department of Education network.

Online services, including websites, web applications, and mobile applications, are delivered over the internet or require internet connectivity. Examples may include interactive learning sites and games, online collaboration and communication tools, web-based publishing and design tools, learning management systems, and file storage and collaboration services.

This letter is to inform you about the third party online services used in our school and how your child's information, including personal information and works, may be recorded, used, disclosed, and published to the services (if you provide your consent for this to occur).

The Online Services Consent Form is a record of the consent provided.

#### About the online services

After evaluation, the principal has deemed specific third party online services appropriate for school use. These online services are listed on the consent form.

Third party online service providers are external to the school, and the services may be hosted onshore in Australia or offshore outside of Australia. Data that is entered into offshore services may not be subject to Australian privacy laws. When considering whether to provide your consent, we encourage you to read the information provided about each online service, including the *terms of use* and *privacy policy*, which outline how information and works will be used and under what circumstances they may be shared.

#### Student information

The consent collected by the form covers both student personal information (e.g. name, date of birth) and school-based information (e.g., student username, email, year level) as outlined on the form.

Where permitted by the service provider, de-identified information will be used and/or efforts will be made to limit the amount of personal information disclosed and stored within online services (e.g., when registering accounts, only mandatory information will be disclosed).

#### Student works

Works might include materials such as student projects, assignments, portfolios, images, video or audio. Where student works will be created within, stored or published to the online service (in some cases, published information or works will be viewable by the public), this will be indicated in 'additional consent requirements' in Section 5 of the Online Services Consent Form.

#### Parent information

Where your personal information (e.g. parent email, name, contact details) will be disclosed to the online service, this will be indicated in the 'additional consent requirements' in Section 5 of the Online Services Consent Form.

## Purpose of the consent

Third party online services are used for various purposes. The purpose of use for each service is outlined in Section 5 of the Online Services Consent Form. For example, teachers may use online services with students to support curriculum delivery, complete learning activities and assessment, facilitate class collaboration, and create and publish class work (e.g. projects, assignments, portfolios).

The Online Services Consent Form records your consent for your child to register accounts, use, and, where specified, publish their work to these services. The form also collects your consent for school staff to collect, store, and transmit information to online services in order to manage school operations and communicate with parents and students.

It should be noted that, in some instances, the school may be required or authorised by the *Education (General Provisions) Act 2006* (Qld) or by law to record, use or disclose the student's personal information or materials without consent.

## Voluntary consent provision

It is not compulsory to provide consent. If your consent is not given, this will not adversely affect any learning opportunities provided by the school to your child.

### Consent may be limited or withdrawn

You can withdraw your consent at any time by notifying the school in writing (by email or letter). The school will confirm the receipt of your request via email if you provide an email address.

You may also limit your consent by providing consent for some, but not all, online services listed on the form.

Requests to limit consent in relation to how the 'Information covered by this consent form' and the 'Approved purpose' (Section 2 and 3 of the form) are applied to a specific service, will be treated as "do not consent", as the school cannot guarantee correct implementation of individual requests.

Due to the nature of the internet, it may not be possible for all copies of information (including images and student works that have already been disclosed or published) to be deleted or restricted from use if you request it. The school may remove content that is under its direct control, however, information and works that have already been disclosed and published cannot be deleted, and the school is under no obligation to communicate changes to your child's consent circumstances to online service providers.

### **Duration of consent**

The consent applies for the period of time specified on the form. You may review and update your consent at any time by notifying the school in writing (by email or letter).

There may be circumstances where the school issues a new consent form to seek additional consent e.g. in the event that new online services are identified for use.

## Who to contact

To return the form, express a limited consent, withdraw consent or ask questions regarding consent, please contact School Office, 07 4130 0222.
