Teaching and Learning @ Bundaberg North SHS

2024 AIP Priorities: improve student outcomes and engagement

Knowing the studentPositive school cultureCurriculum• Complete data placemat – levels of achievement, attendance, First Nations, EAL/D, NCCDContribute to a positive school environment: • Know students' names • Greet people • Display a positive attitude to ensure all students in my class can access the curriculum? Access previous teachers, unpack data, participation in programs, support, well being, student 'back pack'• Know students - uncoditional positive regard • Build positive relationships with students – explicitly teach classroom expectations, establish routines, seating plan, set subject specific goals with students – know their goals.• Most Mewards oport. well being, student 'back pack'• Demonstrate mutual respect encourage a growth mindset and self-responsibility • View whole school events and extra curricula activities as opportunities to build relationships• HODs develop year level/band plans in collaboration with teachers, unit plans developed and reviewed at ICC• Build positive relationships with parents/carers - letter of introduction (email) to subject a start of year/subject, regular communicate oncerns introduction (positive postcards, phone calls, email – 3 per week), communicate concerns usbmitted)• Newerks panent considering moderation and feedback • Consider General Capabilities and how to embed these in planning					
 of achievement, attendance, First Nations, EAL/D, NCCD Use Class Dashboard to assist with monitoring achievement Know students' names Greet people Display a positive attitude to ensure all students in my class can access the curriculum? Access previous teachers, unpack data, participation in programs, support, well being, student 'back pack' Build positive relationships with students – explicitly teach classroom expectations, establish routines, seating plan, set subject specific goals with students – know their goals. How will you ensure students achieve their goals? Review goals. Build positive relationships with parents/carers - letter of introduction (positive postcards, phone calls, email – 3 per week), communicate concerns (engagement, risk of not achieving benchmark, assessment not submitted) environment: Know students - know their goals. Build positive relationships with parents/carers - letter of introduction (positive postcards, phone calls, email – 3 per week), communicate concerns (engagement, risk of not achieving benchmark, assessment not submitted) environment: Know students' names Greet people Display a positive attitude towards students - know their goals. Build positive relationships with parents/carers - letter of introduction (positive postcards, phone calls, email – 3 per week), communicate concerns (engagement, risk of not achieving benchmark, assessment not submitted) 	Knowing the student	Positive school culture	Curriculum		
Learning	 of achievement, attendance, First Nations, EAL/D, NCCD Use Class Dashboard to assist with monitoring achievement Investigate: What do I need to do to ensure all students in my class can access the curriculum? Access previous teachers, unpack data, participation in programs, support, well being, student 'back pack' Build positive relationships with students – explicitly teach classroom expectations, establish routines, seating plan, set subject specific goals with students – know their goals. How will you ensure students achieve their goals? Review goals. Build positive relationships with parents/carers - letter of introduction (email) to subject at start of year/subject, regular communication (positive postcards, phone calls, email – 3 per week), communicate concerns (engagement, risk of not achieving benchmark, assessment not 	 environment: Know students' names Greet people Display a positive attitude towards students - unconditional positive regard Being visible in the playground Use positive reinforcements and North Rewards Demonstrate mutual respect Promote acceptance of difference Encourage a growth mindset and self-responsibility View whole school events and extra curricula activities as opportunities to build relationships 	 (AC) and the QCAA Portal for Senior Syllabuses and VET information across all learning areas Access CARP to align three levels of planning: whole school, year level (or band plans), unit plans HODs develop year level/band plans in collaboration with teachers, unit plans developed and reviewed at ICC Teachers develop weekly lesson overviews/plans based on unit plans (this can include collaborative subject year level planning) All lessons have a Learning Goal/s Deliberate planning to embed differentiation Develop assessment based on subject requirements, considering moderation and feedback Identify cognitive verbs and explicitly teach Consider General Capabilities and Cross Curriculum Priorities and how to embed these in 		

Learning

- Actively engage with other teachers for pre-moderation, moderation and feedback cycles at ICC
- Front end assessment for students students know what the assessment and criteria at the start of the unit
- Embed inclusive practices, considering ICPs, support students to access AARAs when necessary
- Use formative assessments to inform and modify teaching
- Teach and ensure academic integrity in all subjects and classrooms. Add link to academic integrity policy?
- Use Turnitin for submission years 10 12
- Provide multiple types of feedback to students, both group and individualised, linked to criteria
- Provide access to assessment resources for students through QLearn

Pedagogy @ Bundaberg North SHS

Ensuring engagement and learning, every lesson, every day.

Aim: One year's growth for one year of learning

Engagement Strategies	Lesson Structure		Every lesson, every day		
Using strategies that appear in	Opening / Warm Up		High expectations that		
all types of lessons:	• Engage students with warm up activity to		every child can achieve		
 Previewing strategies 	revise or introduce new topic, content or skill		 Knowing the student 		
 Highlighting critical 	Learning Goal/s for less	son written on board,	Positive classroom		
information	share behaviour expect	tations	environment		
Reviewing content	• Share purpose 'why' st	udents are learning	-routines		
Revising knowledge	the content or skill		-physical setting		
Reflecting in learning			-follow classroom		
Assigning purposeful	Body		expectations and		
homework	Explicit/direct instruction	on	consequences		
• Elaborating on information	I DO		-using Essential Skills for		
Organising students to			Classroom Management		
interact			-Reinforcing positive		
Refer to Marzano's ASOT Design			behaviour using North
